TO WHOM IT MAY CONCERN

This is to confirm that the non-governmental organization Norsk Ukrainastøtte (organization number 915 299 989) is assisting with fundraising, procurement and delivery of humanitarian aid in connection with the acute humanitarian crisis caused by the Russian aggression against Ukraine. One of the most urgent needs of Ukraine now is to stabilize the electricity grid of Ukraine. In this context, Ukraine especially needs transformers and generators.

The Embassy of Ukraine in the Kingdom of Norway requests all competent authorities to render necessary assistance during the transportation of citizens of Ukraine to their destination in Norway.
